BODY THERAPY

Hormone Optimization & Weight Loss

- Consult with Dr Rand McClain, a leading expert in regenerative medicine, offering advanced Hormone Therapies to restore balance, energy, and overall well-being.
- Achieve lasting, medically guided weight loss with Dr. Rand McClain using advanced medications that support healthy metabolism, cardiovascular wellness, and blood sugar control.

Peptide Therapy ***NEW** Consultation Needed*

- Explore advanced regenerative therapy with peptide protocols designed to support your body's natural healing and recovery processes. Our personalized approach focuses on optimizing wellness, performance, and healthy aging under expert medical guidance.

Sleep & Breathing Consult ***NEW**

- Experience personalized care for sleep and breathing concerns with Dr. Madelyn Rosenthal, board-certified in pulmonology and sleep medicine. Tailored solutions for sleep apnea, insomnia, altitude challenges, and more to help you breathe easier and sleep better.

NovoTHOR Red Light Therapy

- A whole body red light therapy bed that uses near-infrared light to treat injuries, reduce pain, relax muscles/joints, and increase blood circulation.

Thor LX2 Cold Laser

- Uses LED and laser to reduce pain, inflammation, and speed healing.
- Repairs joint, muscle, tendon, ligament and skin tissue.

PEMF ElectronsPLUS

- Electrical charge (energy) is transferred through our therapist's hands and enters your body through touch. Helps increase range of motion, decreases pain, inflammation and tissue necrosis.

SoftWave® - "non invasive stem cell machine"

- Advanced shockwave device using electrohydraulic spark gap technology that diagnoses and treats acute and chronic pain.
- Increases blood supply, modulates inflammation. Stimulates & activates cellular repair.

Neubie® Neuromuscular Electrical Stimulation (NMES)

- Uses electrical impulses through the skin to nerves in tissue to elicit muscle contractions and sensory impulses. Maintains or increases range of motion, increases blood circulation, reduces spasms, and prevents atrophy.

Manual Therapy / Massage Therapy

- Skillful use of the hands to mobilize/manipulate joints, massage and lengthen soft tissues, and to monitor and facilitate improved neuromuscular control.

Stopher Integrated Recovery ***NEW**

- Blending Eastern and Western healing techniques, he combines therapeutic bodywork, somatic therapy, and sports injury recovery to support lasting healing, improved function, and overall well-being.

Rolfing®

- Rolfing Structural Integration is a form of therapy directed at bringing a person's bodily structure into a more harmonious state, exploring new possibilities of posture and movement.

Colon Hydrotherapy Consultation needed*

- A restorative treatment using purified, temperature-controlled water in a closed system to gently cleanse the colon, supporting detoxification, digestion, and overall wellness.

Traditional Chinese Medicine

- Combines advanced acupuncture, medi-cupping, nerve stimulation therapies, and personalized pain management to address acute and chronic conditions. Led by Dr. Jing Jiang, a physician with over 40 years of experience in Eastern and Western medicine.

Hyperbaric Chamber Therapy (mHBOT)

- Safe, relaxing and highly-effective way to deliver more oxygen to the cells of the body.

PRP Therapy With or Without Biologics Call Us*

- Using your own plasma to help accelerate healing in a joint. Performed by our DRs that specialize in regenerative medicine.

Physical Therapy

- Focused sessions using movement and manual techniques to restore mobility and function.

Compression Therapy

- Normatec Pulse Pro & SQUId Compression (Cold and Pulsed Compression).

SKINCARE

Hydrafacial Elite MD

- Uses patented technology to cleanse, extract, & hydrate with super serums made with nourishing ingredients that create a gratifying glow.

Procell Microchanneling

- Uses biologics to improve the appearance of fine lines, uneven skin tone, wrinkles and scarring.

Dermaplaning

- A noninvasive technique that removes the top layer of skin, improving skin texture and increasing absorption of moisture.

Microneedling Facial with Biologics Free Consult*

- Minimally invasive skin treatment that creates microscopic wounds that triggers the body's healing response, which increases blood flow and collagen production.

Microneedling Hair Restoration w/Biologics Free Consult*

- Creates microscopic wounds in the scalp that trigger the body's healing response, which increases blood flow and collagen production.

Celluma Light Therapy

- The use of red & blue light to help pain, fine lines & wrinkles & acne. Improves cellular repair.
